

# Elenco delle Pubblicazioni di Maurizio Gasperini

(aggiornato al 30.09.2022)

- **2022**

- [240] M. Gasperini,  
From pre- to post-big bang: an (almost) self-dual cosmological history,  
in “*The future of mathematical cosmology*”, ed. by S. Cotsakis and A. Yefremov,  
*Phil. Trans. Roy. Soc. A*, 380, 2230 (2022).  
<https://doi.org/10.1098/rsta.2021.0179>

- **2021**

- [239] G. Fanizza, M. Gasperini, E. Pavone and L. Tedesco,  
Linearized propagation equations for metric fluctuations  
in a general (non-vacuum) background geometry,  
*JCAP* **07**, 021 (2021).  
<https://doi.org/10.1088/1475-7516/2021/07/021>
- [238] M. Gasperini,  
Gravity at finite temperature, equivalence principle, and local Lorentz invariance,  
in “*Breakdown of the Einstein’s Equivalence Principle*”, ed. by A. G. Lebed  
(World Scientific, 2021), Cap. 3, p. 77.
- [237] M. Gasperini,  
Quantum string cosmology,  
*Universe* **7**, 14 (2021).  
<https://doi.org/10.3390/universe7010014>  
available at: <https://www.mdpi.com/2218-1997/7/1/14>

- **2020**

- [236] G. Fanizza, G. Franchini, M. Gasperini and L. Tedesco,  
Comparing the luminosity distance for gravitational waves and electromagnetic signals  
in a simple model of quadratic gravity,  
*Gen. Rel. Grav.* **52**, 111 (2020).  
<https://doi.org/10.1007/s10714-020-02760-5>
- [235] P. ConzINU, M. Gasperini and G. Marozzi,  
Primordial black holes from pre-big bang inflation,  
*JCAP* **08**, 031 (2020).  
<https://doi.org/10.1088/1475-7516/2020/08/031>
- [234] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,  
Generalized covariant prescriptions for averaging cosmological observables,  
*JCAP* **02**, 017 (2020).  
<https://doi.org/10.1088/1475-7516/2020/02/017>

- [233] M. Gasperini,  
La teoria delle stringhe e la cosmologia moderna,  
in Atti del Convegno “*Log@ritmi 2019 - La provocazione della Scienza*”,  
(Liceo Salvemini, Bari, 28-30 Gennaio 2019), ISBN: 978-88-31293-07-5  
(Paginaria Edizioni, Bari, 2020), p.53
- **2019**
- [232] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,  
Observation angles, Fermi coordinates, and the Geodesic-Light-Cone gauge,  
*JCAP* **01**, 004 (2019).  
<https://doi.org/10.1088/1475-7516/2019/01/004>
- **2018**
- [231] J. Quintin, R. H. Brandenberger, M. Gasperini and G. Veneziano,  
String hole gas in  $\alpha'$ -corrected dilaton gravity,  
*Phys. Rev.* **D 98**, 103519 (2018).  
<https://doi.org/10.1103/PhysRevD.98.103519>
- [230] M. Gasperini,  
Le onde gravitazionali nella fisica moderna,  
*Ithaca: Viaggio nella Scienza XII*, 5 (2018).  
<http://ithaca.unisalento.it/>  
e-ISSN: 2282-8079
- **2017**
- [229] M. Gasperini,  
On the initial regime of pre-big bang cosmology,  
*JCAP* **09**, 001 (2017).  
<https://doi.org/10.1088/1475-7516/2017/09/001>
- [228] M. Gasperini,  
Constraints on the production of primordial magnetic seeds in pre-big bang cosmology,  
*JCAP* **06**, 017 (2017).  
<http://dx.doi.org/10.1088/1475-7516/2017/06/017>
- [227] M. Gasperini,  
“*Theory of Gravitational Interactions*”,  
Second Edition, Collana UNITEXT for Physics, 373 pages,  
ISBN: 978-3-319-49681-8, DOI 10.1007/978-3-319-49682-5  
(Springer International, 2017).

- **2016**

- [226] M. Gasperini,  
Observable gravitational waves in pre-big bang cosmology: an update,  
*JCAP* **12**, 010 (2016).  
<http://dx.doi.org/10.1088/1475-7516/2016/12/010>
- [225] M. Gasperini,  
Do alien particles exist, and can they be detected?  
*Int. J. Mod. Phys. D* **25**, 1630030 (2016)  
doi: 10.1142/S0218271816300305  
<http://dx.doi.org/10.1142/S0218271816300305>
- [224] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,  
Time of flight of ultra-relativistic particles in a realistic Universe:  
a viable tool for fundamental physics?,  
*Phys. Lett. B* **757**, 505 (2016).

• **2015**

- [223] M. Gasperini and G. Veneziano,  
String theory and pre-big bang cosmology,  
*Il Nuovo Cimento C* **38**, 160 (2015).
- [222] M. Gasperini,  
Cosmology and short-distance gravity,  
*Int. J. Mod. Phys. D* **24**, 1544003 (2015).
- [221] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,  
A new approach to the propagation of light-like signals  
in perturbed cosmological backgrounds,  
*JCAP* **08**, 020 (2015).
- [220] M. Gasperini,  
“*Relatività Generale e Teoria della Gravitazione*”  
Second Edition, Collana UNITEXT for Physics, 362 pages,  
ISBN: 978-88-470-5689-3, DOI: 10.1007/978-88-470-5690-9  
(Springer-Verlag Italia 2015).

• **2014**

- [219] M. Gasperini,  
The twin paradox in the presence of gravity,  
*Mod. Phys. Lett. A* **29**, 1450149 (2014).
- [218] M. Gasperini,  
“*Gravity, Strings and Particles: A Journey Into the Unknown*”,  
ISBN: 978-3-319-00598-0, DOI: 10.1007/978-3-319-00599-7  
125 pages (Springer International Publishing, Switzerland, 2014).

[217] M. Gasperini,  
String theory and primordial cosmology,  
in “*Springer Handbook of Spacetime*”, ed. by E. Ashtekar and V. Petkov  
ISBN 978-3-642-41991-1, DOI: 10.1007/978-3-642-41992-8-35  
(Springer-Verlag, Berlin Heidelberg, 2014), Cap. 35, p. 743.

[216] M. Gasperini,  
“*Gravità, stringhe e particelle: una escursione nell’ignoto*”,  
Collana “I BLU” (popular book), 162 pages, Italian Edition  
ISBN: 978-88-470-5534-6, DOI: 10.1007/978-88-470-5535-3  
(Springer-Verlag Italia, Milano, 2014).

• **2013**

[215] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,  
An exact Jacobi map in the geodesic light-cone gauge,  
*JCAP* **11**, 019 (2013).

[214] I. Ben-Dayan, M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,  
Average and dispersion of the luminosity-redshift relation in the concordance model,  
*JCAP* **06**, 002 (2013).

[213] L. Cosmai, G. Fanizza, M. Gasperini and L. Tedesco ,  
Discriminating different models of luminosity-redshift distribution,  
*Class. Quantum Grav.* **30**, 095011 (2013).

[212] I. Ben-Dayan, M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,  
Do stochastic inhomogeneities affect dark-energy precision measurements?  
*Phys. Rev. Lett.* **110**, 021301 (2013).

[211] M. Gasperini,  
“*Theory of Gravitational Interactions*”,  
Undergraduate Lecture Notes in Physics, 322 pages,  
ISBN: 978-88-470-2690-2, DOI: 10.1007/978-88-470-2691-9  
(Springer-Verlag, Berlin Heidelberg, 2013).

• **2012**

[210] I. Ben-Dayan, M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,  
Backreaction on the luminosity-redshift relation  
from gauge invariant light-cone averaging,  
*JCAP* **04**, 036 (2012).

[209] M. Gasperini,  
“*Lezioni di Cosmologia Teorica*”,  
Collana UNITEXT di Fisica e Astronomia, 250 pages,  
ISBN: 978-88-470-2483-0, DOI: 10.1007/978-88-470-2484-7  
(Springer-Verlag, Milano, 2012).

- **2011**

- [208] M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,  
Light-cone averaging in cosmology: formalism and applications,  
*JCAP* **07**, 008 (2011).

- **2010**

- [207] A. Barone, M. Gasperini and G. Rotoli,  
Macroscopic Quantum Tunneling and the “cosmic” Josephson effect,  
*Phys. Rev. D* **82**, 087301 (2010).
- [206] M. Gasperini,  
“*Manuale di Relatività Ristretta*”,  
Collana UNITEXT di Fisica e Astronomia, 140 pages,  
ISBN: 978-88-470-1604-0  
(Springer-Verlag, Milano, 2010).
- [205] M. Gasperini,  
“*Lezioni di Relatività Generale e Teoria della Gravitazione*”,  
Collana UNITEXT di Fisica e Astronomia, 290 pages,  
ISBN: 978-88-470-1420-6  
(Springer-Verlag, Milano, 2010).
- [204] M. Gasperini, G. Marozzi and G. Veneziano,  
A covariant and gauge invariant formulation of the cosmological “backreaction”,  
*JCAP* **02**, 009 (2010).

- **2009**

- [203] M. Gasperini, G. Marozzi and G. Veneziano,  
Gauge invariant averages for the cosmological backreaction,  
*JCAP* **03**, 011 (2009).

- **2008**

- [202] M. Gasperini,  
Why supersymmetry should be restored at the TeV Scale,  
*Int. J. Mod. Phys. D* **17**, 2521 (2008).
- [201] M. Gasperini,  
Higher-dimensional perturbations of the vacuum energy density,  
*JHEP* **06**, 009 (2008).
- [200] L. Amendola, M. Gasperini and C. Ungarelli,  
Non-local dilaton coupling to dark matter:  
cosmic acceleration and pressure backreaction,  
*Phys. Rev. D* **77**, 123526 (2008).

- [199] M. Gasperini,  
 “*The Universe before the Big Bang: cosmology and string theory*”,  
 Astronomers’ Universe Series, 208 pages,  
 ISBN-13: 978-3540744191  
 (Springer-Verlag, Berlin Heidelberg, 2008).
- [198] M. Gasperini,  
 Dilaton cosmology and phenomenology,  
*Lect. Notes Phys.* **737**, 787 (2008).
- [197] M. Gasperini and J. Maharana,  
 Gabriele Veneziano: a concise scientific biography and an interview,  
*Lect. Notes Phys.* **737**, 3 (2008).
- [196] M. Gasperini and J. Maharana (Eds.),  
 “*String theory and fundamental interactions*”  
 Springer Series Lecture Notes in Physics, Vol. 737,  
 974 pages, ISBN-13: 978-3-540-74232-6  
 (Springer-Verlag, Berlin Heidelberg, 2008).

- **2007**

- [195] M. Gasperini,  
 “*Elements of String Cosmology*”,  
 Cambridge monograph series in Theoretical and Mathematical Physics,  
 570 pages, ISBN-13: 978-0-521-86875-4  
 (Cambridge University Press, Cambridge UK, 2007).

- **2006**

- [194] L. Amendola, M. Gasperini and F. Piazza,  
 SNLS data are consistent with acceleration at  $z \approx 3$ ,  
*Phys. Rev.* **D 74**, 127302 (2006).
- [193] M. Gasperini,  
 Ricordando Eduardo Caianiello,  
*La Biblioteca dei 500*, sito web di Ulisse (SISSA, Trieste, 1 December 2006),  
<http://ulisse.sissa.it/biblioteca/saggio/2006/Ubib061201s001>
- [192] M. Gasperini,  
 A new scale in the sky,  
*Int. J. Mod. Phys.* **D 15**, 2147 (2006).
- [191] M. Gasperini,  
 Primordial magnetic seeds from string cosmology,  
*Astron. Nachr.* **327**, 399 (2006).

- [190] M. Gasperini and S. Nicotri  
Observable(?) cosmological signatures of superstrings  
in pre-big bang models of inflation,  
*Phys. Lett. B* **633**, 155 (2006).
- [189] M. Gasperini,  
Phenomenology of the relic dilaton background,  
in “*Recent developments in gravitational physics*”,  
eds. I. Ciufolini, E. Coccia, M. Colpi, V. Gorini and R. Peron,  
Institute of Physics Conference Series N.187  
(Taylor & Francis, New York, London, 2006), p. 475.
- **2005**
- [188] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,  
CMB anisotropies through axion decay in pre-big bang models,  
in *Proc. of the “10th Marcel Grossmann Meeting”*,  
eds. M. Novello, S. P. Bergliaffa and R. Ruffini,  
(World Scientific, Hackensack, 2005), p. 1744.
- [187] N. Bonasia and M. Gasperini,  
Response of the common mode of interferometric detectors  
to a stochastic background of massive scalar radiation,  
*Phys. Rev. D* **71**, 104020 (2005).
- [186] M. Cavaglià, G. De Risi and M. Gasperini,  
Relic gravitons on Kasner-like brane,  
*Phys. Lett. B* **610**, 9 (2005).
- **2004**
- [185] M. Gasperini,  
La cosmologia di stringa,  
in “*Un arcobaleno di domande*”,  
tratto dalla sito *Ulisse - Nella rete della scienza* (SISSA, Trieste),  
a cura di F. Scarpa (Edizioni Dedalo, Bari 2004), p. 39.
- [184] L. Amendola, M. Gasperini and F. Piazza,  
Fitting Type Ia supernovae with coupled dark energy,  
*JCAP* **09**, 014 (2004).
- [183] M. Gasperini,  
Towards a future singularity?,  
*Int. J. Mod. Phys. D* **13**, 2267 (2004).
- [182] M. Gasperini, M. Giovannini and G. Veneziano,  
Cosmological perturbations across a curvature bounce,  
*Nuc. Phys. B* **694**, 206 (2004).

- [181] M. Gasperini,  
Late-time effects of Planck scale cosmology:  
dilatonic interpretation of the dark energy field,  
in Proc. of the Int. Conf. on “*Thinking, Observing and Mining the Universe*”  
eds. G. Miele and G. Longo (World Scientific, Singapore, 2004), p. 153.
- [180] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,  
The axion as a curvaton in string cosmology models,  
in Proc. of the Int. Conf. on “*Thinking, Observing and Mining the Universe*”  
eds. G. Miele and G. Longo (World Scientific, Singapore, 2004), p. 49.

• **2003**

- [179] M. Gasperini,  
Superstring cosmology,  
in “*Concise Encyclopedia on Supersymmetry*”,  
eds. J. Bagger, S. Duplij and W. Siegel (Kluwer Acad. Pub., Dordrecht, 2003), p. 437.
- [178] M. Gasperini, M. Giovannini and G. Veneziano,  
Perturbations in a non-singular bouncing Universe,  
*Phys. Lett. B* **569**, 113 (2003).
- [177] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,  
Constraints on pre-big bang parameter space from CMBR anisotropies,  
*Phys. Rev. D* **67**, 063514 (2003).
- [176] L. Amendola, M. Gasperini, D. Tocchini-Valentini and C. Ungarelli,  
Early acceleration and adiabatic matter perturbations  
in a class of dilatonic dark-energy models,  
*Phys. Rev. D* **67**, 043512 (2003).
- [175] M. Gasperini and G. Veneziano,  
The pre-big bang scenario in string cosmology,  
*Phys. Rep.* **373**, 1 (2003).

• **2002**

- [174] M. Gasperini,  
L’universo prima del big bang,  
in *Realtà Nuova* (Rivista dell’Istituto Culturale Rotariano),  
**n. 5** (Ottobre 2002), p. 55.
- [173] M. Gasperini,  
Production and detection of relic dilatons in string cosmology,  
in Proc. of “*The Ninth Marcel Grossmann Meeting*”  
(University of Rome “La Sapienza”, July 2000),  
eds. V. G. Gurzadyan, R. Jantzen and R. Ruffini  
(World Scientific, Singapore, 2002), p. 1245.
